# Our company

Founded in 2003, Digilux Technology Corp. is a flash storage products supplier based in Taiwan. Our products include original/OEM legitimate and premium quality of SD / microSD card, USB drive, and SSD.

We provide solutions that best suit each customer's distinctive requirements, from consumer-grade to professional-grade orientation, Digilux offers a versatile range of quality flash memory products to clients around the globe.

Optimizing your opportunity to succeed is our continual commitment. Feel free to contact us if you are interested in our products and services provided.

## Product

### A. Memory Cards

#### Consumer SD & micro SD

Digilux provides full range of SD and microSD™ cards with incredible performance at cost-effective prices for consumer electronic devices.

#### Specifications

Capacity	8GB - 512GB
Form Factor	SD / SDHC / SDXC / MicroSD / Micro SDHC / Micro SDXC
Speed Class	C4 / C10 / U1 / U3 / V10 / V30 / UHSI / UHSII
Operating Temp	0°C - 70°C
Certifications	CE, ROHS, FCC

#### Industrial SD & micro SD

Adoption of high endurance MLC NAND flash memory extends the card's lifespan by approximately 10 times longer than consumer memory cards with TLC NAND flash memory.

#### Specifications

Capacity	8GB - 128GB
Form Factor	SD / SDHC / SDXC / MicroSD / Micro SDHC / Micro SDXC
Speed Class	C4 / C10 / U1 / U3 / V10 / V30 / UHSI / UHSII
Durability P / E Cycles	MLC 2000
Operating Temp	-25°C - 85°C
Certifications	CE, ROHS, FCC

**Extended product life cycle :**  
Made with brand-name MLC NAND Flash chips for extra endurance & stability

#### CompactFlash (CF) card

The high endurance performance is excellent for those devices that require stable and intensive usage.

#### Specifications

Capacity	1GB - 256GB
Form Factor	CF6.0 / CFast
Read / Write Speed	Up to 3300X
Operating Temp	0°C - 70°C
Certifications	CE, ROHS, FCC

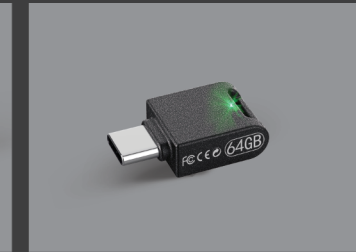

### B.USB Flash Drives

FS108

FK1

DC1

Digilux provides a wide range of USB drive. From USB 2.0, USB 3.0 to OTG Dual Drive. No matter it's for business promotion gift or devices bundle project with Fix BOM request. You always can find suitable items here.

### C.Solid State Drives (SSDs)

DX-100

DX-101

#### DX-100 & DX-101

Digilux's 2.5" DX-100 SSD promises great reliability and excellent performance compared to traditional HDD. It offers an advanced storage solution for your notebook, PC, Tablet PC and Industrial PC. SSD is the easiest, and the most cost-efficient, way to upgrade your computer.

Our Mini portable SSD DX-101 come with USB 3.1 Type C to USB A cable allow you connect and use the SSD directly in the devices,

#### Specifications

Capacity	120G / 128G / 240G / 256G / 480G / 512G / 1TB / 2TB
DX-100 Interface ( 2.5" )	SATA III (6Gb/s) , Compatible with PC & MAC
DX-101 Interface ( Portable )	USB 3.1 Gen 1 (5Gb/s), Compatible with PC & MAC
Read / Write Speed	Read: up to 550MB/s; Write: up to 500MB/s
MTBF	1,500,000 Hours
Operating temperature	0°C - 70°C
Storage temperature	-40°C ~ 85°C
Shock Resistance	1,500G/ 0.5 msec
Certifications	RoHS / CE / FCC
